It's not always a sad story in areas affected by conflict... There are children who promised to do their best to finish their studies...

*Almost 400 students... Our Tatak Family is growing...*

While it is true that proper infrastructure is needed by schools, let us also not disregard the importance of creating a nurturing kind of environment... giving them a sense of healing, love and hope despite the situation that they are in...

# *War can greatly affect children physically, emotionally, morally and psychologically.*

With all sorts of conflicts and violent narratives that our young generations are being exposed to, it is even more significant that we increase our efforts in helping build a Culture of Peace. **A Culture of Peace should be regarded as an integral component in creating a sustainable peaceful and inclusive society.** The kind of Culture of Peace that teaches about all the values, attitudes and forms of behaviors that reflect respect for life, for human dignity and for all human rights. It is also about imparting why violence should be rejected and how we can disengage our young people from violence (UNESCO). **And the strategic as well as the most sustainable way to build Culture of Peace is Peace Education, beginning with children.**

**Peace education** is very much needed in **developing skills and knowledge** to nurture peace amongst children and youth especially in areas where there have been so much violent conflicts.

**TPBPM MISSION: TO MAKE EVERY FILIPINO CHILD AND YOUTH A PEACE BUILDER**

**VISION: A PEACEFUL SOCIETY WHERE YOUNG GENERATIONS OF DIFFERENT FAITHS, CULTURES AND ETHNOLINGUISTIC GROUPS ARE HELPING BUILD A CULTURE OF PEACE AND PRACTICING PEACE AS A WAY OF LIFE.**

The **institutionalization of Peace Education and Peace building programs in schools and communities have been one of our goals.** This has been the approach and perspective of Teach Peace Build Peace Movement. We transform a Cycle of Conflict to a Cycle of building different generations of Peace Builders as a way of countering the narratives of the negative elements and their negative experiences.

# PEACE HERO PRINCIPLE:

The Peace Hero Principle is a principle by which peaceful societies can be achieved by transforming a community especially children and youth into peace heroes. A Peace Hero is someone who undergoes a journey with the following components beginning with:

- Track 1: Change of Mindset towards being a Prime Mover for Peace
- Track 2: Behavioral Change(Transformation of Human Behavior);
- Track 3: Charismatic-Servant Leadership;
- Track 4: Acceptance of Peace Building as a Responsibility, as a Personal Mission and Peace Building Skills Development;
- Track 5: Building Peace Social Structures and a Peace Constituency.

*These are all the tracks on how we develop children and youth to becoming peace heroes.*

# KAPATIRAN SCHOOL

## PEACE CHANT

Peaceful mouth, Peace hands  
I'll always be nice and kind.  
Peaceful feet, Peaceful space  
I'll always move with grace.  
Peaceful eyes, Peaceful ears  
I will understand things clear.  
Peaceful heart, Peaceful mind  
And a new friend I shall find.

**" Children's toys are very vital in shaping their character.**

We often see children, mostly boys, play toyguns with their playmates. It made me realize that toy weapons should not be given to children because it perpetuates the notion in children that they have the power to hurt people. "
